BBP44 MINI UPLIGHT
QUICK **START GUIDE**

SAFETY INSTRUCTIONS

WARNING! Before carrying out any operations with the unit, carefully read this instruction manual and keep it with care for future reference. It contains important information about the installation, usage and maintenance of the unit.

- Unpack and check carefully that there is no transportation damage before using the unit
- Please read these instructions carefully and follow the instructions.
- Observe all safety warnings. Never remove safety warnings or other information from the equipment.
- Be sure that no ventilation slots are blocked; otherwise the unit will overheat.

WARNING! Before connecting the equipment to the power outlet, first verify that the mains voltage and frequency match the values specified on the equipment. If the equipment has a voltage selection switch, connect the equipment to the power outlet only if the equipment values and the mains power values match. If the included power cord or power adapter does not fit in your wall outlet, contact your electrician.

- After connecting the unit, check all cables in order to prevent damage or accidents, e.g., due to tripping hazards.
- Make sure that the power cord is never crimped or damaged. Check the unit and the power cord from time to time.
- Always disconnect power from the mains, when unit is not used or before cleaning! Only handle the power cord by the plug. Never pull out the plug by tugging the power cord.
- Unplug the power cord and power adapter from the power outlet if there is a risk of a lightning strike or before extended periods of disuse.
- Do not switch the unit on and off in short intervals.
- Do not connect the unit to a dimmerpack.
- Install the unit in a well ventilated place.
- Never place any material over the lens.
- Never let the sunlight lights directly to the front lens, even when the unit is not working.
- Always allow free air space of at least 50 cm around the unit for ventilation.
- Make sure that the area below the installation place is blocked when rigging, derigging or servicing the unit.
- For mounting height >100 cm, always fix the unit with an appropriate safety-rope. Fix the safety-rope at the correct fixation points only. The safety-rope must never be fixed at the transport handles!
- Never look directly at the light beam. Please note that fast changes in lighting, e. g. flashing light, may trigger epileptic seizures in photosensitive persons or persons with epilepsy.
- This unit is not designed for permanent operation. Consistent operation breaks will ensure that the unit will serve you for a long time without defects.

WARNING! If the power cord of the unit is equipped with an earthing contact, then it must be connected to an outlet with a protective ground. Never deactivate the protective ground of a power cord.

- Make sure that the unit is not exposed to extreme heat, moisture or dust.
- Clean the unit using a dry cloth.
- Do not touch the unit bare-handed during its operation (housing becomes very hot). Allow the unit to cool for at least 5 minutes before handling.
- This unit is designed exclusively for indoor use, do not use this equipment in the immediate vicinity of fluid (does not apply to special outdoor equipment - in this case, observe the special instructions noted below). Do not expose this unit to flammable materials, fluids or gases.
- If the unit has been exposed to drastic temperature fluctuation (e.g. after transportation), do not switch it on immediately. The arising condensation water might damage your unit. Leave the unit switched off until it has reached room temperature.
- Never attempt to bypass the thermostatic switch or fuses.
- Do not dismantle or modify the unit.
- For replacement use fuses/bulb of same type and rating only.
- Repairs, servicing and electric connection must be carried out by a qualified technician.
- The ambient temperature must always be between -5°C and $+45^{\circ}\text{C}$.
- If this unit is operated in any other way, than the one described in this manual, the product may suffer damages and the warranty becomes void.
- Plastic bags must be kept out of reach of children.
- Unit must be installed out of the reach of children. Never leave the unit running unattended.

This symbol on the product or on its packaging indicates that this product shall not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment.

By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. The recycling of materials will help to conserve natural resources. For more detailed information about recycling of this product, please contact your local Civic Office, your household waste disposal service or the shop where you purchased the product.

UNPACKING INSTRUCTION

CAUTION! Immediately upon receiving the product, carefully unpack the carton, check the contents to ensure that all parts are present, and have been received in good condition. Notify the shipper immediately and retain packing material for inspection if any parts appear damage from shipping or the package itself shows signs of mishandling. Save the package and all packing materials. In the event that the product must be returned to the factory, it is important that the product be returned in the original factory box and packing.

REMOTE CONTROLLER

BLACK OUT

1. Press <BLACK OUT> off existing modes.
2. Press <BLACK OUT> again to return the last modes.

AUTO

Automatic mode will enable you to run the automatic light programs. To turn on automatic mode:

1. Press <AUTO> on the remote controller. Display shows “FF99”.
2. Press <+> or <-> to choose between the different auto programs.
3. Press <AUTO> again to turn off the auto mode.

SOUND

Sound mode will enable the product to respond to the music. To turn on sound mode:

1. Press <SOUND> on the remote controller.
2. Press <SENSITIVITY> and then press <+> or <-> to increase or decrease the sound sensitivity.
3. Press <SOUND> again to turn off the sound mode.

STROBE

Activate the strobe function in automatic or sound mode.

1. Press <STROBE> on the remote controller.
2. Press <+> or <-> to either increase or decrease the speed of strobe.
3. Press <STROBE> again to turn off the strobe.

SPEED

No function

SENSITIVITY

To adjust sound sensitivity for in sound mode.

1. Press <SENSITIVITY> on the remote controller.
2. Press <+> or <-> to either increase or decrease sound sensitivity.
3. Press <SENSITIVITY> again to turn off the sensitivity mode.

%

Select colour gradual change mode.

1. Press <%> on the remote controller. Display shows “CC00”.
2. Press <+> or <-> to either increase or decrease speed of the program.
3. Press <%> again to turn off the gradual change mode.

MANUAL

Select one of eight static colours.

1. Press <MANUAL> on the remote controller. Display shows “AU01”.
2. Press <+> or <-> to choose your static colour.
3. Press <MANUAL> again to turn off the manual mode.

FADE

To adjust the fade speed of the automatic program, the sound active program and the manual mode.

1. Press <FADE> on the remote controller. Display shows “EE00”.
2. Press <+> or <-> to either increase or decrease the speed of the program.
3. Press <FADE> again to turn off the fade mode.

R,G,B,W AND NUMBER 1~9

1. Select static colour with the buttons <R>,<G>,,<W> or digit <1> to <9>.
2. Press <+> or <-> to either increase or decrease brightness.

The remote control is supplied with a battery inserted. An insulating foil between the battery and the battery contacts prevents the battery from being discharged during storage. Prior to the first operation remove the foil from the battery support on the rear side of the remote control. Otherwise operation of the remote control is not possible.

If the range of the remote control decreases, replace the battery. For this purpose, on the rear side of the remote control press the small bar with the groove to the right (1) and at the same time remove the battery support (2). For operation, one 3 V button cell type CR 2025 is required. When inserting, pay attention that the positive pole of
