YOUR BENEFITS

New Denon premium FreeEdge driver delivers uncompromised Hi-Res audio performance in a noise cancellation headphone

Three noise cancellation modes designed for flights, commuting and the office to ensure peace and quiet

The soft, adjustable headband and dual-movement memory foam earcups are designed for extended wear

Up to 20 hours of battery life — easily recharge it with included USB cable or use as a wired headset with included 3.5mm audio cable

Hear every detail of your favorite music — AptX HD Bluetooth ensures wireless CD quality sound

Listen, make and answer calls wirelessly or wired with the included in-line remote

Lightweight, folding design fits neatly into the included carry case

More than 50-year legacy of crafting headphones for audio-enthusiasts

DENON 100+ YEARS “LEGACY OF FIRSTS” IN AUDIO TECHNOLOGY
