# THE NEW ATM350A

INSTRUMENT MICROPHONE

## INTRODUCING THE NEW ATM350a INSTRUMENT MICROPHONE

The ATM350a is the ultimate microphone solution for discreet, rock-solid mounting on your instrument of choice, from Piano to 20-piece Drum Kit.

Offering a crisp, clear, well-balanced response, even at extreme SPLs, the ATM350a is ready to capture your sound, whatever instrument you choose.

### A Package Made To Meet Your Needs

The ATM350a is available in six different packages to meet your specific instrumental needs, whether that be woodwind, strings, brass, percussion, drums or Piano.

**ATM350U Cardioid Condenser Instrument Microphone w/ Universal Clip-on Mounting System:** ATM350a microphone, AT8490 gooseneck, AT8491U universal mount, AT8543 power module, hard case, AT8468 velcro mount

AT8491P

AT8491D

AT8491U

AT8491W

### Multiple New Accessories

The impressively rugged AT8491D drum mount gives greater robustness on the road and minimises both vibration and the chance of damage from misplaced stick hits.

The all-new AT8491P magnetic piano mount, improved AT8491U universal clip-on mount and AT8491W flexible woodwind mounting strap bring even more secure mounting options - further extending the ATM350a's usability and appeal as an essential recording or sound reinforcement tool.
