

# LDP-JUNCTION IP68

Product 5112

## Description

- Waterproof connection box for LDP series and other outdoor DMX-projectors.
- IP68 rated: can be used outside or even underground.
- The connection box has 2 separate compartments, each with their own terminals:
  - A "power" compartment with 3 input glands: power in/through for the main power cable and power output to the projector.
  - A "DMX" compartment with 4 input glands: DMX in/through for the main DMX-cable and DMX in/out glands to/from the projector.
- Very easy and fast connection inside (no tools needed)
- Perfect for LDP-series and any other power/signal outdoor combination (Powerbeam, LED Blaster, Powerbank, ...)

## Technical Information

- **Power cables:** 3 input glands, for cable diameters ranging from 7mm to 11mm
- **DMX signal cables:** 4 input glands, for cable diameters ranging from 3mm to 6,5mm
- **Mains voltage:** < 300Vac
- **Mains current:** < 15A
- **Insulation resistance:** > 100MΩ
- **Glow-wire test enclosure:** 650°C (according to IEC 60695-2-11)
- **IP-code:** IP68
- **Weight:** 0,15 kg
